P-9904
USB Printer Interface

Description

Usually a thermo panel printer is provided by fire alarm panel. But the thermo paper is not suitable for long term storage. The P-9904 interface provides a port for connecting a USB printer to the panel so that the events can be printed on A4 paper immediately.

Technical Specification

- Compatible Panel: GST-IFP8 panel
- Compatible Printer: Epson LQ-590K and other printers adapting same printing protocol
- WEEE & RoHS compliant

Order Information

Part No.	P-9904
Device Name	USB Printer Interface
Order Code	3601639

Typical Connection

5VDC

USB Cable

Ribbon Cable
